Technical Skills

Languages: HTML, CSS, JavaScript, PHP

Databases: MySQL, MongoDB

F**rameworks/Librarie**s: React.js, Node.js, Express.js, Bootstrap , TailwindCss

Tools & Platforms: Postman, Git, GitHub

Other Skills: Strong problem-solving abilities, attention to detail, effective communication, debugging, and troubleshooting

Education

Intermediate
APTECH
Sindh Board of Technical Education (SBTE)

3-Year Diploma
APTECH
Advance Diploma in Software Engineering (ADSE)

About Me

Aspiring MERN Stack Developer with hands-on experience in developing and managing CRUD operations, implementing JWT-based authentication, and building secure and responsive web applications. Proficient in using MongoDB, Express.js, React.js, and Node.js to deliver high-quality, maintainable code. Passionate about enhancing user experiences through efficient design and problem-solving. Currently seeking opportunities to apply my skills and further develop as a full-stack developer.

Projects

CRUD Application with JWT Authentication

- Developed a full-stack CRUD application using the MERN stack, allowing users to perform create, read, update, and delete operations.
- Validated inputs on the back-end using Express.js middleware, ensuring data consistency and security.

LMS Website (React.js, Tailwind CSS)

- Developed a Learning Management System (LMS) frontend using React.js.
- Implemented state management using Context API.
- Designed a modern and responsive UI with Tailwind CSS.
- Used dummy data to showcase course listings, user dashboard, and navigation features.
- Implemented user authentication for secure access.

Work Experience

- Developed a LMS website using React.js and Tailwind CSS.
- Implemented user authentication and state management using Context API.
- Built a complete CRUD system with JWT authentication.
- Designed a responsive UI for a seamless user experience.

Additional Information

- Continuously working on side projects to strengthen skills in the MERN stack and explore advanced concepts like state management and API integration.
- Proactively working on side projects to stay updated with emerging trends and technologies in web development.
