## Education

### Intermediate
APTECH
Sindh Board of Technical Education (SBTE)

### 3-Year Diploma
APTECH
Advanced Diploma in Software Engineering (ADSE)

## About Me

Self-motivated and passionate React.js Developer with strong expertise in front-end and full-stack web development. Experienced in developing dynamic, user-friendly applications and implementing modern UI/UX practices. Proficient in integrating APIs, managing state using Redux, and building scalable, maintainable codebases. Eager to leverage technical and problem-solving skills to contribute to a dynamic software development team.

## Projects

### AI Content Generator

- Designed and developed a web application that generates SEO-optimized content automatically using Gemini API.
- Implemented responsive UI with React and Tailwind for seamless user experience.
- Integrated Gemini API for advanced content generation features.
- Technologies: React, Tailwind, Gemini API

### RequestDesk

- Built a platform allowing employees to submit IT and office-related requests directly to administrators.
- Developed secure request submission and approval workflows.
- Implemented full-stack functionality using MERN stack architecture.
- Technologies: MongoDB, Express.js, React.js, Node.js

### Hotel Management System

- Designed and developed a comprehensive dashboard-based Hotel Management System to handle bookings, guest management, room allocation, and billing operations.
- Built an intuitive admin interface allowing easy monitoring and management of hotel resources.
- Applied responsive design using React.js and Tailwind CSS for cross-device compatibility.
- Managed application state efficiently using Redux for smooth data handling.
- Technologies: React.js, Redux, Tailwind CSS
